COURSE SYLLABUS

NoSQL Databases with MongoDB

Ever wanted to collect and fetch data? MongoDB has been called “the most popular database for modern apps”. If you’re an app developer already working with JavaScript, MongoDB is a fast and reliable solution to building, storing, and organizing your data!

> Group classes (NYC) and onsite training are available for this course. For more information, email corporate@nobledesktop.com or visit: https://programwithus.com/classes/nosql-databases-with-mongodb
